CLUB HIGHLIGHTS

Nature Play Club

At before school care, our senior program has been absolutely loving Nature Play Club. This is facilitated on the edge of the bottom oval each morning session. The children have enjoyed the opportunity to be part of nature based activities such as Nature Forts, Leaf Printing, Stick Creations, Nature Collages and much more.

This activity has been so successful that the grade two group has now also began their own Nature Play group each afternoon session! Educators have enjoyed the opportunity to support children to learn respect for the environment and to encourage outdoor play.

CLUB HIGHLIGHTS

Master Chef Club

At after school care, our grade four and over group has been participating in Master Chef Club. This club runs every Tuesday afternoon, and children learn to follow recipes, manipulate materials and equipment, and work together as a team to achieve a result. Due to the service being nut aware, and egg and meat free, Educators have also used this activity as an opportunity to teach children about substituting ingredients and allergy awareness. Favourite recipes so far have been Rainbow Muffins, Jam Drops, Anzac Biscuits, and Scrolls!
